# Routine Health Checkup in Dubai for Patient from Nigeria

## PATIENT INTRODUCTION AND MEDICAL CONDITION

Dennis Ogaranya Masi and his wife Tamfiri Dennis-Masi are residents of Nigeria. Mr. Dennis had a benign wart on his thigh. Also, both Mr. Dennis and Mrs. Tamfiri wanted the routine health check-up done.

## TREATMENT DECISION

Mr. Dennis contacted Medigence over business WhatsApp with his inquiry to get [health check-up done at American Hospital](#) which is a general medical/surgical private hospital with a multi-specialty physician group practice, intended to offer a high quality, American standard of healthcare to meet the requirements and surpass the expectations of the people of Dubai, [the UAE](#), and the surrounding Gulf States. He had been there before and also wanted a follow-up appointment with the urologist. All appointments were booked and the package was booked for him as well as his wife. He then showed a picture of the benign wart that he had on his thigh. He asked for an opinion and cost for getting it removed. He was given tentative costing. Appointment with General surgeon Dr. Reinhold Zimmermann/ Dr. Sherif was also fixed as per his schedule. They arrived on 13 April 2019 and he got a wart removed as an OPD procedure. Diamond Health check-up was ordered for both Mr. Dennis and his wife.

## CONDITION AFTER DISCHARGE

The patient recovered well. Dennis Ogaranya Masi and his family are in Dubai for leisure. We, at MediGence, thanks to the expert general surgeons for diagnosis and management of this condition and wish Dennis and his family a happy and healthy life.
